## ABOUT ME

---

Ever since I was young, I have involved myself in computer-related events to enhance my interests and to further deepen my understanding of the different skills the world has to offer. My key morals of dedication and perseverance are what drive me to perform at my best and to utilize my curiosity when expanding my knowledge. As a young adult, my goals and experience are going to be the breakthrough for my success and the communities that I will be apart of in the future will pave a pathway for my excellence
